## BOOTY BUILDER PLATINUM

### BOOTY BUILDER PLATINUM PLATE LOADED HIP THRUST MACHINE

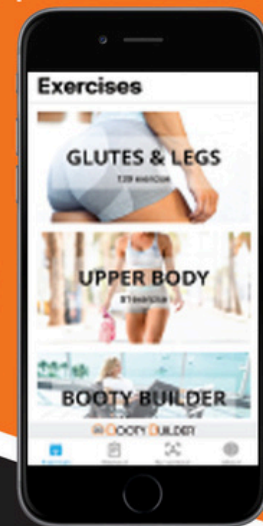

Booty Builder PLATINUM is our new and innovative plate loaded machine, which makes hip-thrusting easy and fun, on a minimal footprint.

Booty Builder provides the ultimate glute workout with its patented raised feet design isolating the glutes and allowing for a deeper range of movement and constant resistance for better results.

The cushioned seatbelt design adds extra comfort so you can load up heavy weight. Add the Booty Builder bands for extra resistance and explosive movement required for sports performance.

The seat adjustment is on linear bearing rollers, making it easily glide into position to suit all heights from 4.8ft to 7ft.

## BOOTY BUILDER V8.0

The **Booty Builder® V8.0** is a new and innovative machine which makes hip-thrusting safer, faster and more effective.

The Patented raised feet design puts you in the ultimate position to isolate the glutes.

**Booty Builder** has a wide range of users from those wanting strong sexy glutes, medical facilities strengthening the posterior chain and professional sporting teams realizing the importance of glute activation for physical function, strength and performance.

### COMPACT DESIGN

Eliminates the need to occupy benches, barbells, plates and floor space. The innovative design makes it possible to place it close to a wall, or into a corner space.

### BETTER

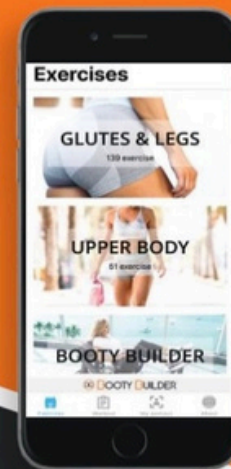

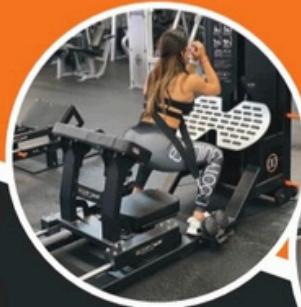

The patented raised feet design of the Booty Builder® gives users the optimal range of motion and movement for targeting the gluteus maximus.

### FASTER

The cushioned belt clicks in for quick set up and comfort and the 350LB selectorized weight stack plus option to add resistance bands makes it quick and easy for weight changes.

## BOOTY BUILDER® STATION 2.0

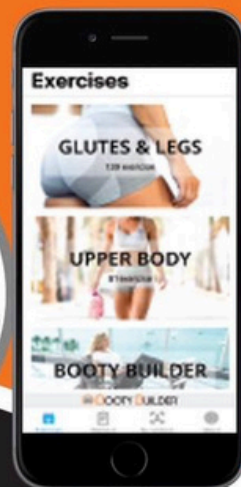

Booty Builder Station 2.0 offers the best of both worlds, with its patented elevated foot platform design allowing for raised feet hip thrust using barbell or resistance bands, which there is no better way to isolate the glutes. Or you can slide the foot platform on the linear bearing rails out of the way for your traditional feet on the ground barbell hip thrust to work a different angle.

Booty Builder Station 2.0 can also be used for hundreds of other exercises using our Booty Builder resistance bands, working every part of the body.

Heavy duty design for commercial or home use, with transport wheels to easily move around and stand up to save on space when not in use.

- Heavy Duty design for commercial or home use.
- Adjustable foot platform and pegs to suit all heights and strength levels
- Able to stand upright to save floor space when not in use.
- Transport wheels to move into a class or anywhere around the home.

## BOOTY BUILDER® SELECTORIZED BACK EXTENSION

The Booty Builder® Selectorized Back Extension is a World first, which allows you to conveniently lift weight using cable while performing back extensions. Adjustable height positioning allows you to position to isolate glutes or lower back.

No more dropped weight plates on the floor. Dual function with leg swing pulley and handles for stability.

- The BB back extension eliminates the struggle gripping weight plates / kettle bells for added resistance, when performing the hyperextension exercise.
- The Selectorized Back Extension machine allows you to conveniently hold onto a barbell for the added resistance, and avoids weights being dropped to the floor.
- The multiple height adjustments is ideal for any user, it helps you target anywhere between hamstrings / glutes and lower back.
- With dual usage, it can also be used for leg swing exercises with ankle strap attachment. You can adjust the height of the handlebars to suit the user for stability during the exercise.
