EXE LINE

THE BEST
FITNESS
EXPERIENCE!

2022

EXE LINE

EXE LINE is designed and built thinking about the current world of Fitness, namely the Personal Trainer service, guaranteeing great quality of service for the client. All equipment has technology that is easy to use for the user, making the most of each equipment due to its speed of adjustment, thus minimizing the user's time loss in order to perform an exercise in complete safety.

PROFESSIONAL LEVEL

The machines with resistance (kg) by **EXE LINE** plates are versatile allowing to equip fitness clubs, fitness boutiques, Personal Trainer studios, hotels and even when used by professional trainers from all over the world to provide customers with the best training "**THE BEST FITNESS EXPERIENCE**". We designed our range of equipment to be as simple and comfortable as possible, while still offering the benefits of a complete workout.

EQUIPMENT WITH CERTIFICATION

Our equipment has quality certification of several levels having been subjected to several quality tests, from the construction structure, biomechanics, safety systems, biomechanical adjustments, CAM system, durability among others ... The equipment thus ensures great quality, consistency and safety for sports professionals and users.

TRUST IN OUR EQUIPMENT

We offer universal support for all of our equipment, so you can be sure that your ELLIPSE FITNESS equipment will be the best in its categories. It is with pride that we have been suppliers of several fitness chains with world renown for over 10 years. We have several training centers related to different sports, from football, basketball, athletics, high performance sports, among others ...
