FITNESS EQUIPMENT

MULTI STATION (4)

FGD-020

- Height: 2352mm
- Length: 3472mm
- Width: 2218mm
- Machine Weight: 720kg
- Load: 4x100kg
- 4 stations available:
- High quality Commercial Grade designed for intensive use.
- High quality manufacturing with laser cutting and robot welding.
- Includes High Row, Low Row, Triceps Exercise and Vertically Adjustable Muti Station
- Includes Accessories. (Single Grip, 48° Back Grip, V-Handle, Tri-ceps Rope)
- Standard available color: (Black or Grey).
- Ultra durable 6.6mm manageable steel cable.

GROUP MUSCULAR WORK

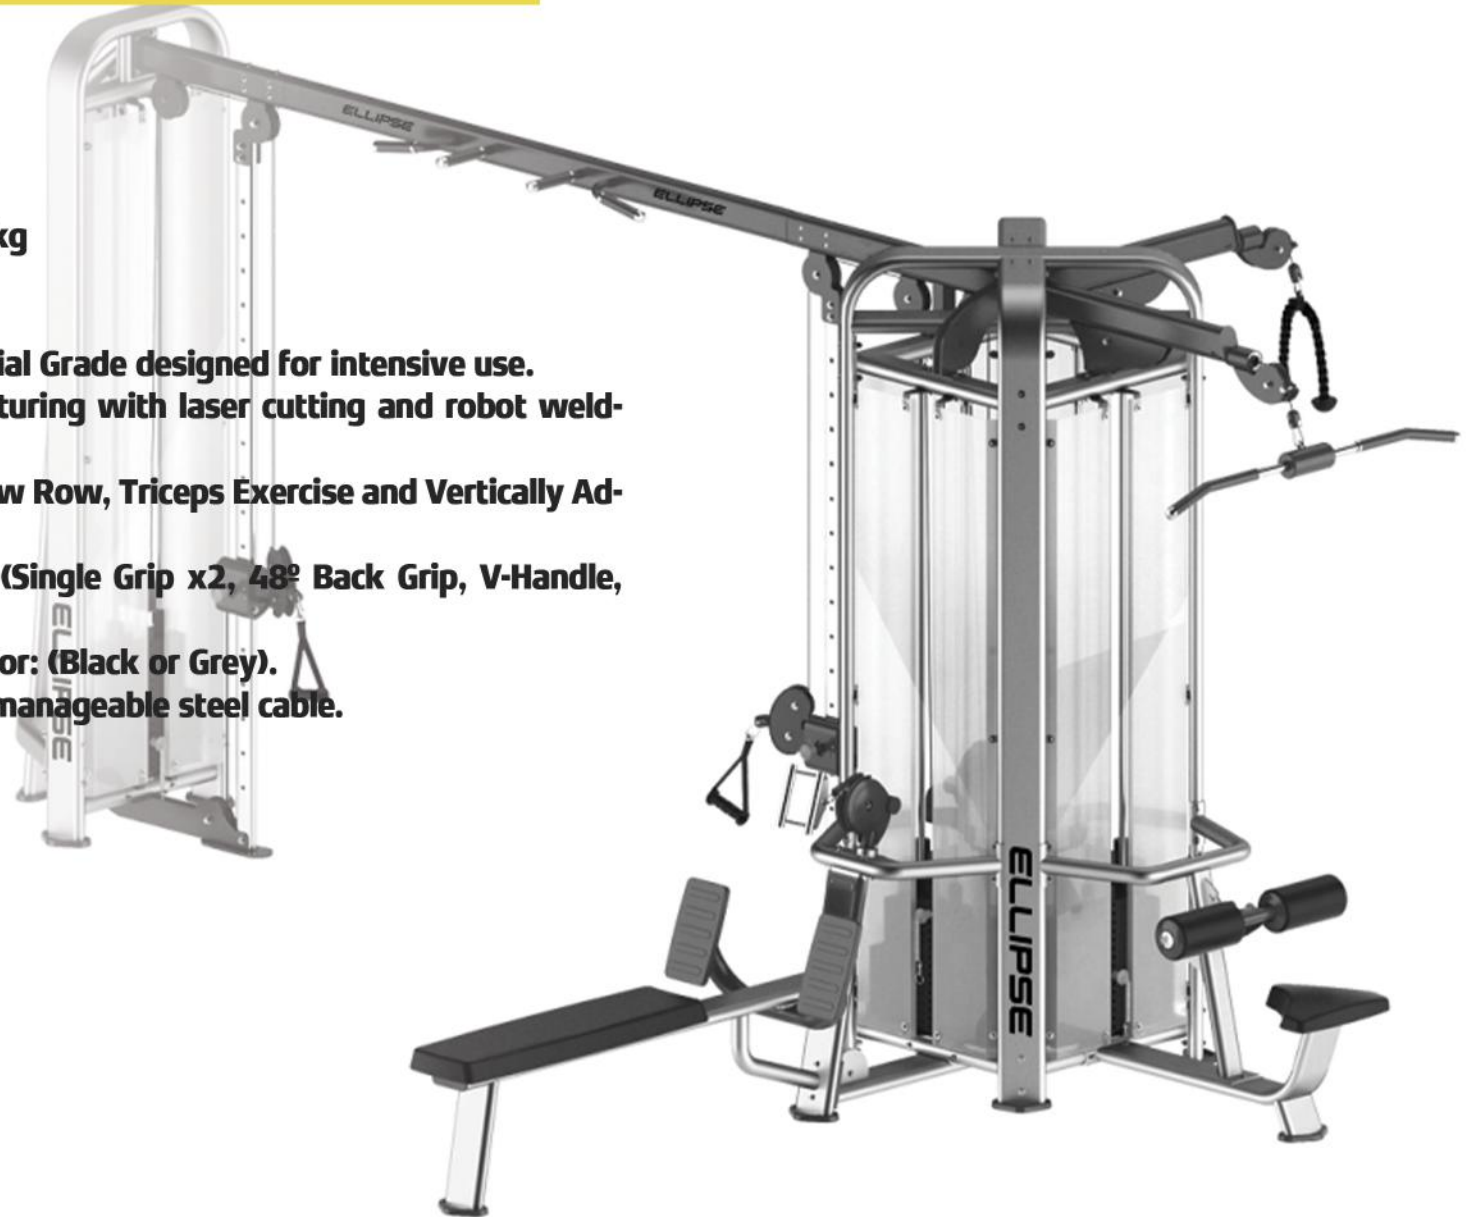

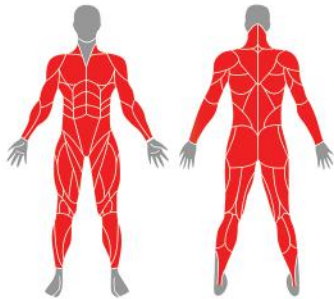

MULTI STATION (5)

FGD-021

- Height: 2352mm
- Length: 5557mm
- Width: 3386mm
- Machine Weight: 990kg
- Load: 460kg
- 5 stations available:
- High quality Commercial Grade designed for intensive use.
- High quality manufacturing with laser cutting and robot welding.
- Includes High Row, Low Row, Triceps Exercise and Vertically Adjustable Muti Station
- Includes Accessories. (Single Grip x2, 48° Back Grip, V-Handle, Triceps Rope)
- Standard available color: (Black or Grey).
- Ultra durable 6.6mm manageable steel cable.

GROUP MUSCULAR WORK

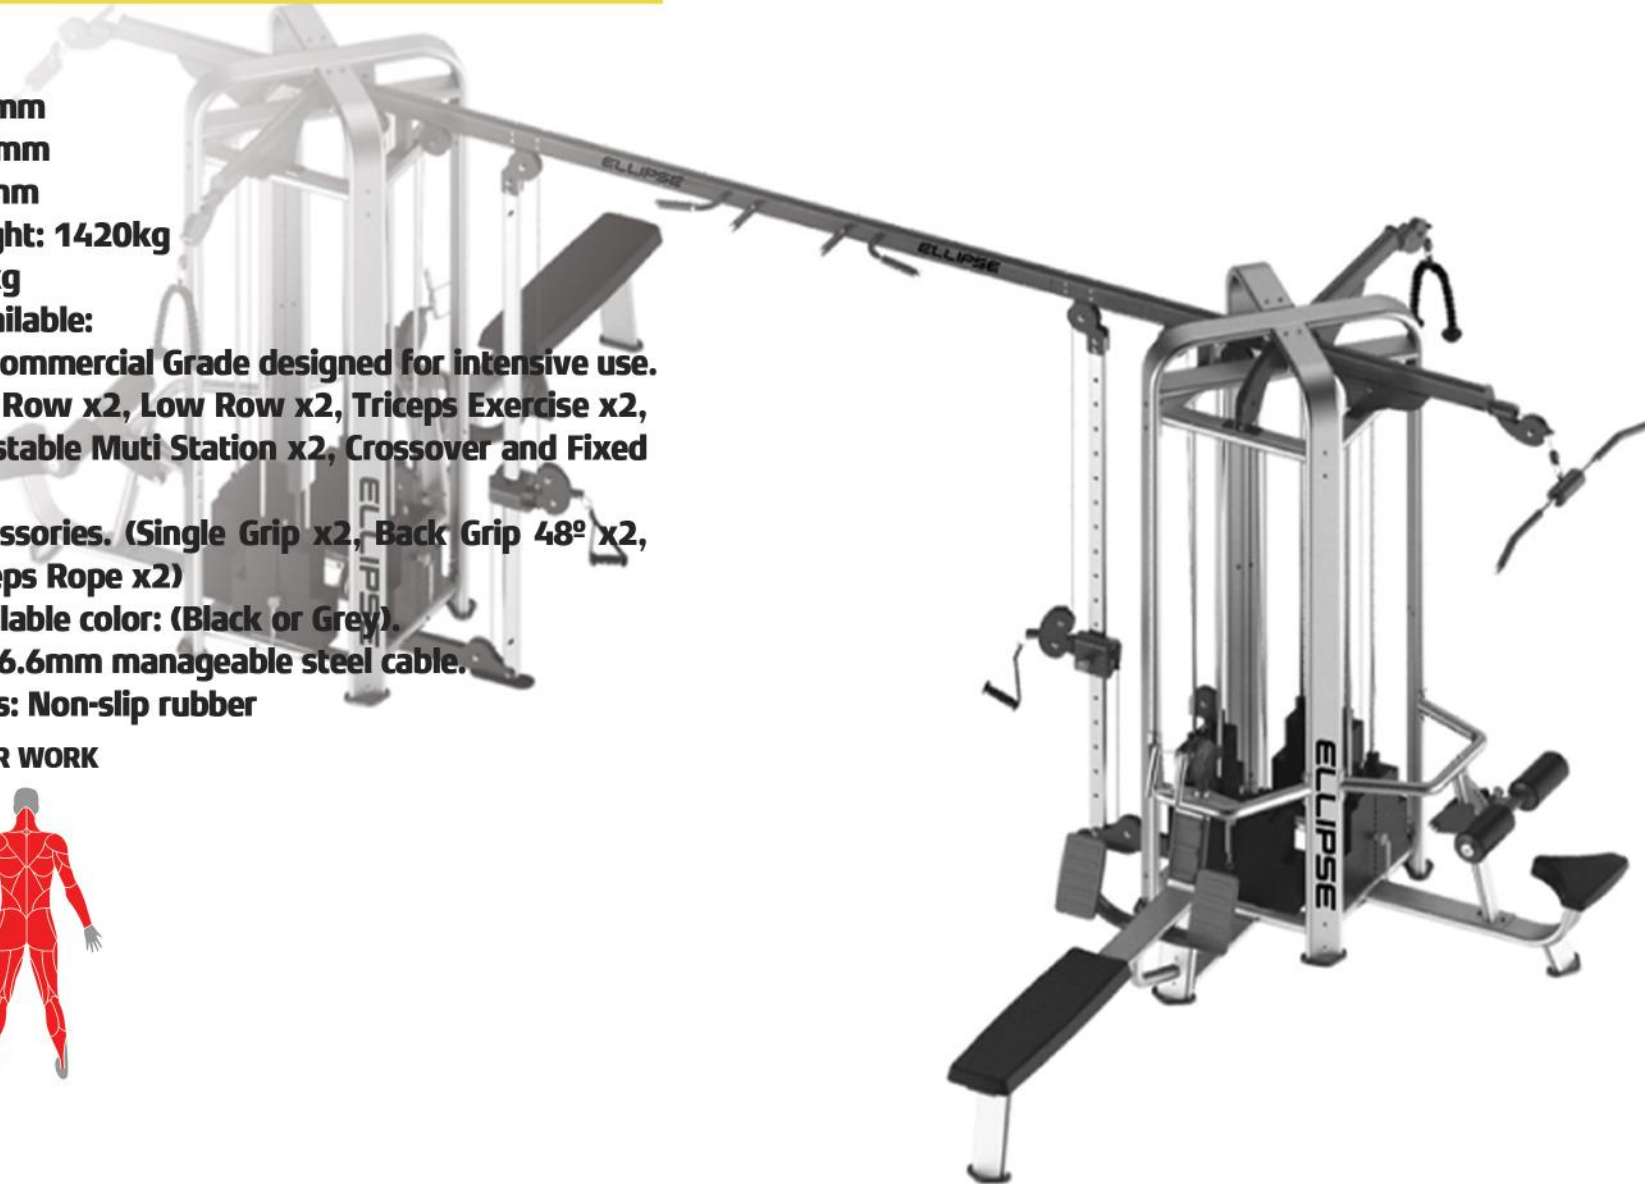

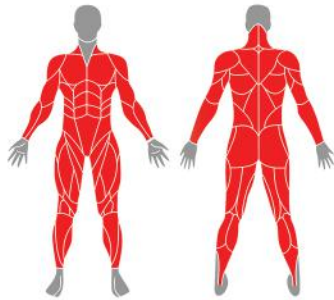

MULTI STATION (10)

FGD-022

- Height: 2352mm
- Length: 6715mm
- Width: 5236mm
- Machine Weight: 1420kg
- Load: 8x100kg
- 8 stations available:
- High quality Commercial Grade designed for intensive use.
- Includes High Row x2, Low Row x2, Triceps Exercise x2, Vertically Adjustable Multi Station x2, Crossover and Fixed Raise Zone
- Includes Accessories. (Single Grip x2, Back Grip 48° x2, V-grip x2, Triceps Rope x2)
- Standard available color: (Black or Grey).
- Ultra durable 6.6mm manageable steel cable.
- Floor supports: Non-slip rubber

GROUP MUSCULAR WORK

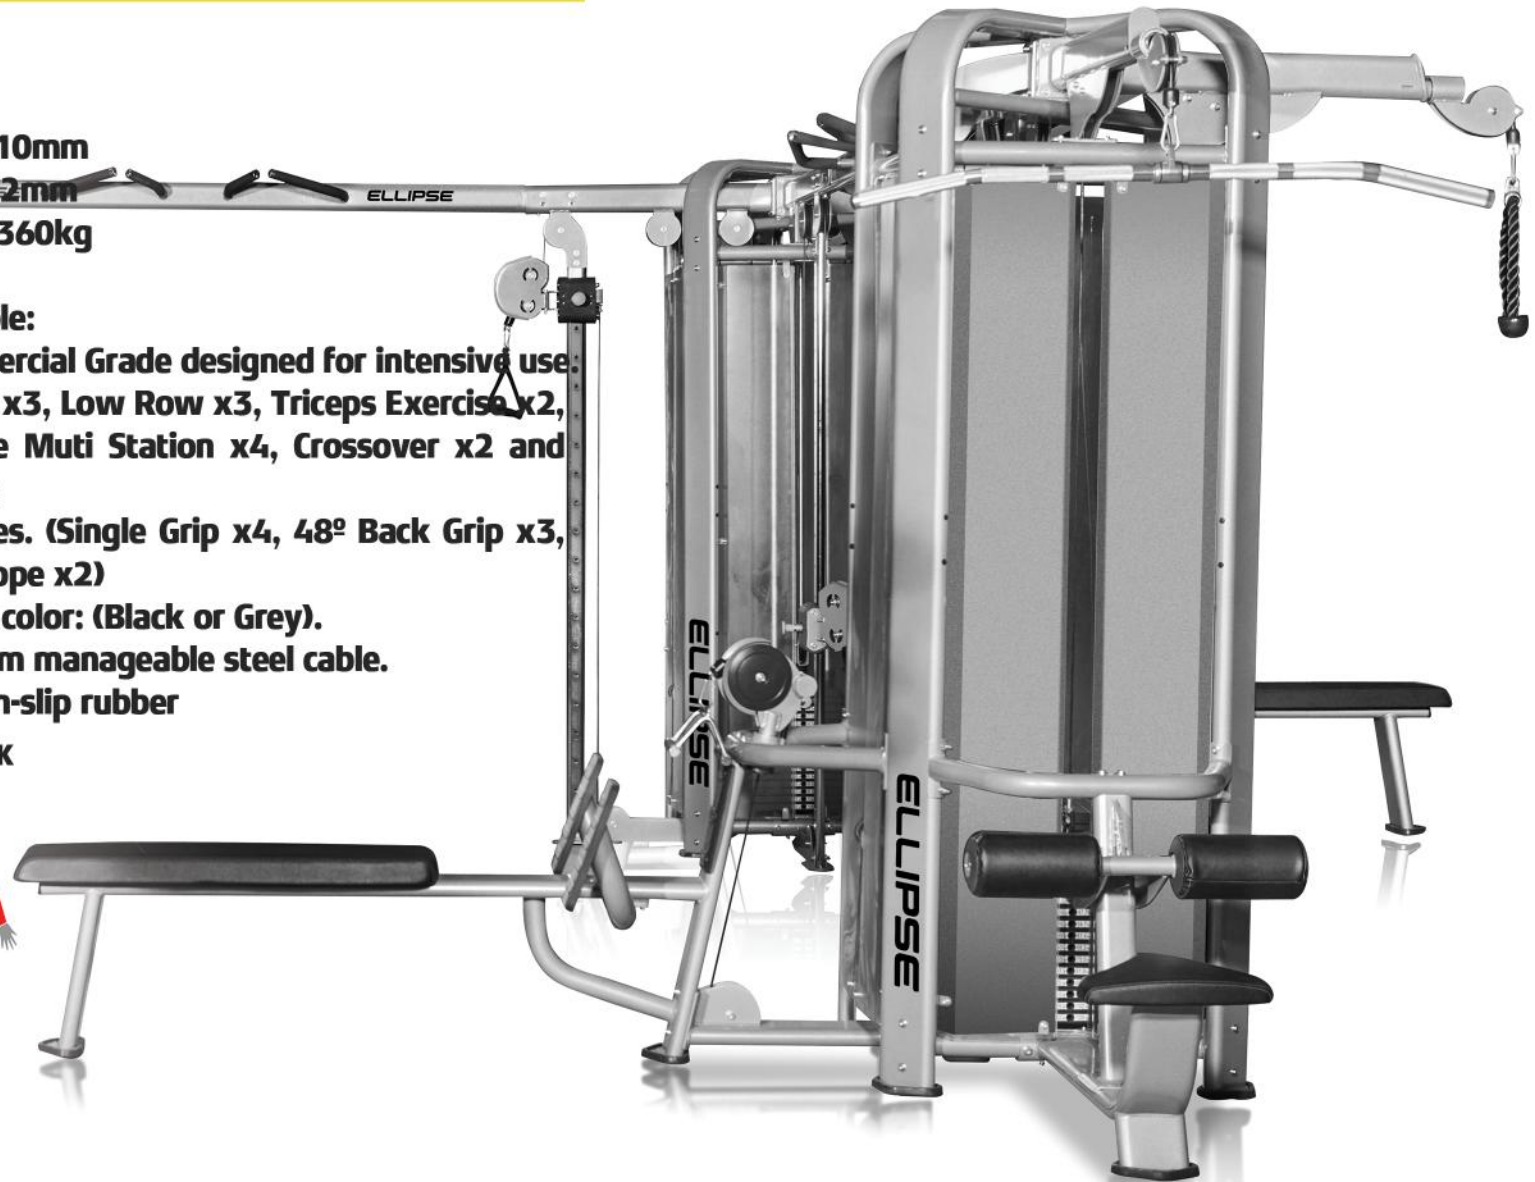

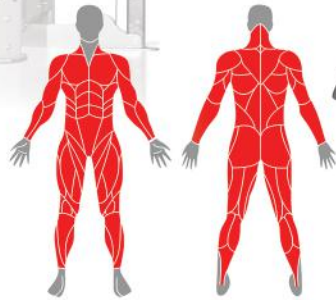

MULTI STATION (12)

FGD-023

- Height: 2352mm
- Length: 6712 + 2510mm
- Width: 4633 + 3742mm
- Machine Weight: 2360kg
- Load: 1050kg
- 12 stations available:
- High quality Commercial Grade designed for intensive use:
- Includes High Row x3, Low Row x3, Triceps Exercise x2, Vertically Adjustable Multi Station x4, Crossover x2 and Fixed Raise Zone x2
- Includes Accessories. (Single Grip x4, 48° Back Grip x3, V-grip x3, Triceps Rope x2)
- Standard available color: (Black or Grey).
- Ultra durable 6.6mm manageable steel cable.
- Floor supports: Non-slip rubber

GROUP MUSCULAR WORK

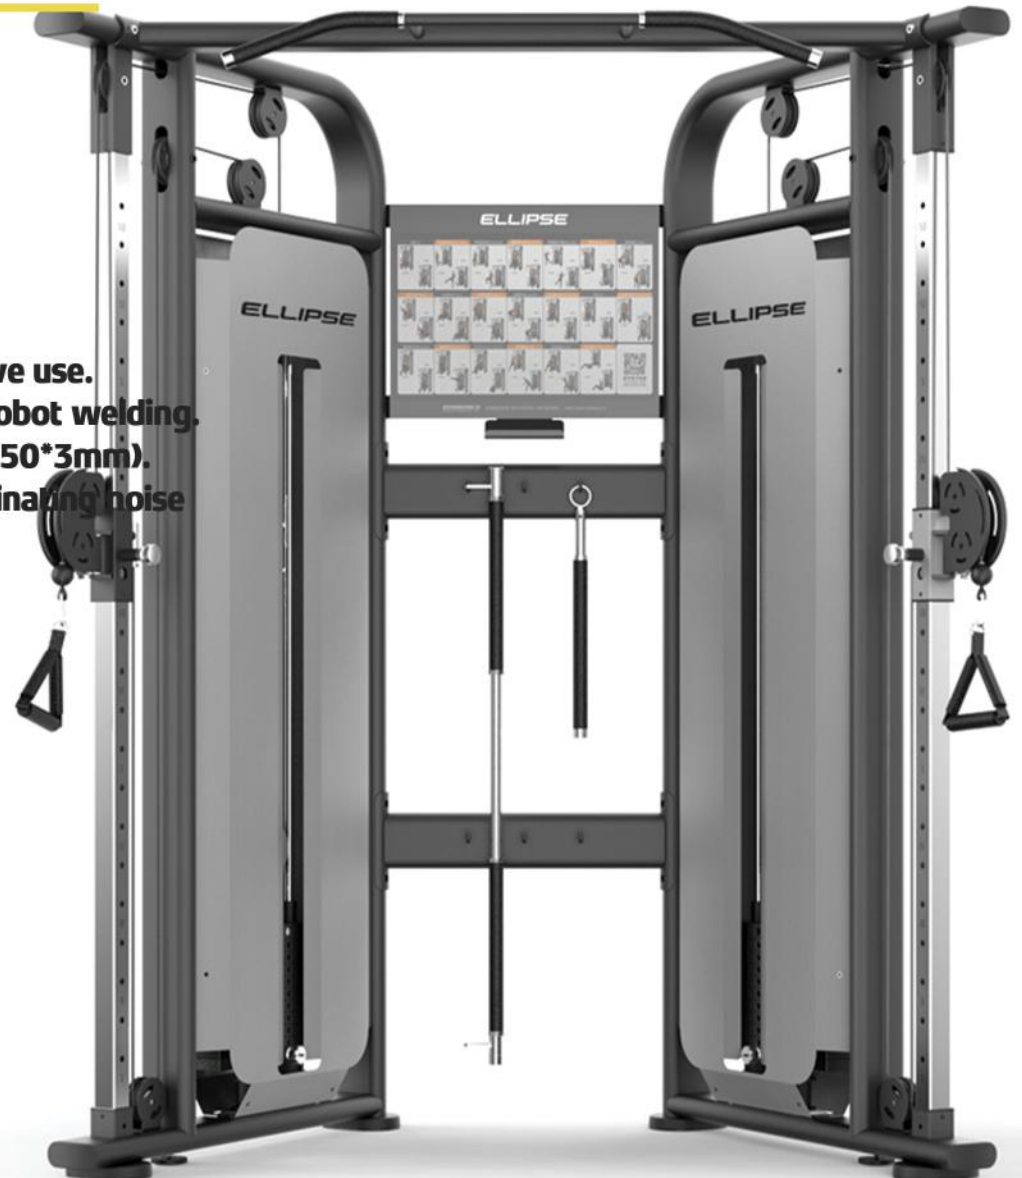

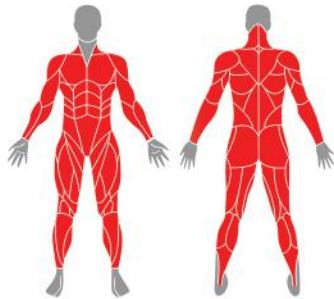

FUNCTIONAL TRAINER

FGD-030

- Height: 2240mm
- Length: 1018mm
- Width: 1160mm
- Machine Weight: 480kg
- Load: 2x100kg
- 2 stations available:
- High quality Commercial Grade designed for intensive use.
- High quality manufacturing with laser cutting and robot welding.
- Raw material: SPHC hot rolled steel oval tube (120*50*3mm).
- Weight plates: Cold rolled steel, PVC insulated, eliminating noise during use.
- Standard available color: (Black or Grey).
- Includes Accessories.
- Floor supports: Non-slip rubber.

GROUP MUSCULAR WORK

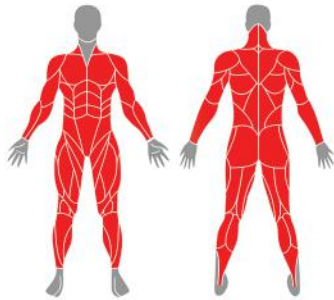

SMITH MACHINE

FGD-031

- Height: 2385mm
- Length: 1485mm
- Width: 2185mm
- Machine Weight: 200kg
- Maximum User Weight: 180kg
- Equipment with an avant-garde designer that uses cutting-edge technology.
- Structure in high quality steel tube (3mm).
- High quality Commercial Grade designed for intensive use.
- High quality manufacturing with laser cutting and robot welding.
- 50mm Disc Support (6 support zones)
- Floor supports: Non-slip rubber.
- Standard available color: (Black or Grey)

GROUP MUSCULAR WORK

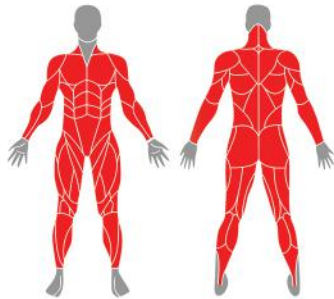

SQUAT RACK

FGD-032

- Height: 1894mm
- Length: 1677mm
- Width: 1740mm
- Machine Weight: 198kg
- Maximum User Weight: 180kg
- Equipment with an avant-garde designer that uses cutting-edge technology.
- Raw material: SPHC hot rolled steel oval tube (120*50*3mm).
- 50mm Disc Support (4 support zones)
- Security Supports: It limits the amplitude of the work area, thus increasing the safety of the user.
- Painting with two initial protection layers + a final finishing layer, final protection of about 300mm.
- Rubber floor supports.
